29–30 October 2018
Congress Center Essen, Germany

5th Aortic Live Symposium

THORACIC ENDOVASCULAR AORTIC REPAIR OF RESIDUAL ZONE 2 DISSECTION USING THE THORACIC BRANCH ENDOPROSTHESIS (TBE STENT GRAFT)

Operators: Dr. Nimesh Desai, Dr. Grace Wang, Dr. Joseph Bavaria

Patient Data: 52 year old male

Operators: N Desai, J Bavaria, G Wang

Medical Background: Residual zone 2/descending aortic dissection status post emergent proximal aortic repair (AV resuspension and Zone 2 aortic arch replacement) for DeBakey I aortic dissection

CTA: Large residual tear in distal arch

Treatment: Zone 2 Single Branched Graft

Materials: 1. Gore TBE Aortic Stent Graft
2. Distal Extension with Gore CTAG
